LinkedIn — Portfolio

Profile

Physicist with a strong technical background in Machine Learning, Deep Learning and Big Data. Experienced in working with complex datasets, building predictive models and developing analytical solutions for real-world business problems. Currently applying advanced analytics and econometric modeling to forecasting, performance measurement and optimization tasks. Interested in developing scalable data-driven and AI-based systems that combine analytical rigor, automation and efficient data processing.

Academic Background

Master's Degree in Big Data, Data Science and Artificial Intelligence, Complutense University of Madrid 2025 – 2026

Bootcamp in Applied Technology and Business Intelligence, International University of La Rioja 2025 – 2026

Bachelor's Degree in Physics, University of Zaragoza 2020 – 2025

- Bachelor's Thesis: *Neural networks applied to an economics problem*.
- Erasmus+ exchange at Università degli Studi di Torino (2023–2024)

Professional Experience

Data Analyst — Annalect (Omnicom Media) 2025 – Present

- Developed econometric and statistical models (Marketing Mix Modeling) to evaluate campaign performance and optimize media investment.
- Analyzed large-scale datasets to extract actionable insights supporting strategic and data-driven decision-making.
- Built interactive dashboards in Tableau for KPI monitoring and business performance tracking.
- Applied quantitative methods to improve resource allocation and optimize complex business processes.

Waiter, Tahona Milagrosa Café (Pamplona) 2020 – 2025

Technical Skills

- **Programming:** Python, R, SQL, C/C++, Bash, LaTeX
- **Machine Learning & AI:** Supervised and unsupervised learning, feature engineering, model evaluation, predictive modeling, forecasting, time series analysis, clustering, PCA, tree-based and ensemble models, neural networks, computer vision, NLP, LLMs.
- **Libraries & Frameworks:** NumPy, pandas, scikit-learn, TensorFlow/Keras, PyTorch, matplotlib, seaborn, statsmodels, OpenCV.
- **Big Data & Cloud Data Platforms:** Apache Spark, Databricks, Snowflake, Microsoft Azure.
- **Business Intelligence & Visualization:** Tableau, Excel.
- **Databases & Tools:** SQL, NoSQL, MongoDB, Linux, Git.

Languages

- Spanish — Native
- English — C1

Volunteering

- **Elderly care home** (2019)
